

Home-School Academic Communication

How do I know what homework my child has?

- Ask your child to show you their ASSIGNMENTS tab in Teams, where assignments are posted by teachers
- Check your student's physical Assignment Book (Div 1 and Div 2 only)

How does my child know if they are up to date in their classes?

- Each week, students (and their advisors) are sent an email that gives a color-coded update on their status in classes (known as RYG). Students review and reflect on this update with their advisor during Academic Advising on Monday afternoons.
- *If your child's advisor sees a pattern of work completion issues, they will reach out to you.*
- If you have specific concerns, please email your child's teachers and/or advisor(s) with questions.

How does Parker communicate with parents/guardians about how students are doing in school?

- Progress Reports
Four times a year, Parker sends Progress Reports (and/or Final Narratives) to your email. These quarterly reports come to your email as pdf attachments, and they contain information from each class about assignment completion, academic and skill area progress, and overall comments that let you know your student's strengths and areas for growth. You will receive these reports in:
 - November
 - February
 - April
 - June
- PLP Conferences
Twice a year (in October and March), we invite parents/guardians to for Personal Learning Plan (PLP) conversations. These parent-student-advisor conversations allow you to learn more about your child's progress and goals for the year.
- OneNote Links
At any time, you can directly access the rubrics for your child's major projects via the personalized OneNote links that are sent to parents/guardians via email each September. These links let you see the individual feedback and progress on each major assignment your child completes (pages labeled RUBRIC). The email you received has additional information about resources available to you in the OneNote pages. Please contact Deb Merriam (deb@theparkerschool.org) if you need to receive these links again.
