

On a computer (Mac/PC or Chromebook), you can join a Teams meeting

- **BETTER:** After downloading the (FREE) Microsoft Teams app.

OR

- **Sufficient:** In a browser

Instructions for both methods follow:

Joining from the Teams App

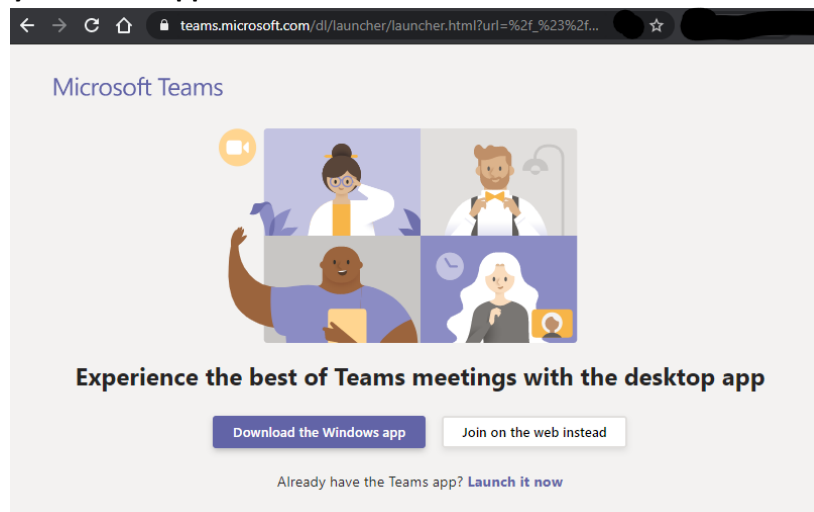

You can test the steps below as soon as you receive your meeting link.

1. Download and install the respective (FREE) Teams app for your device.

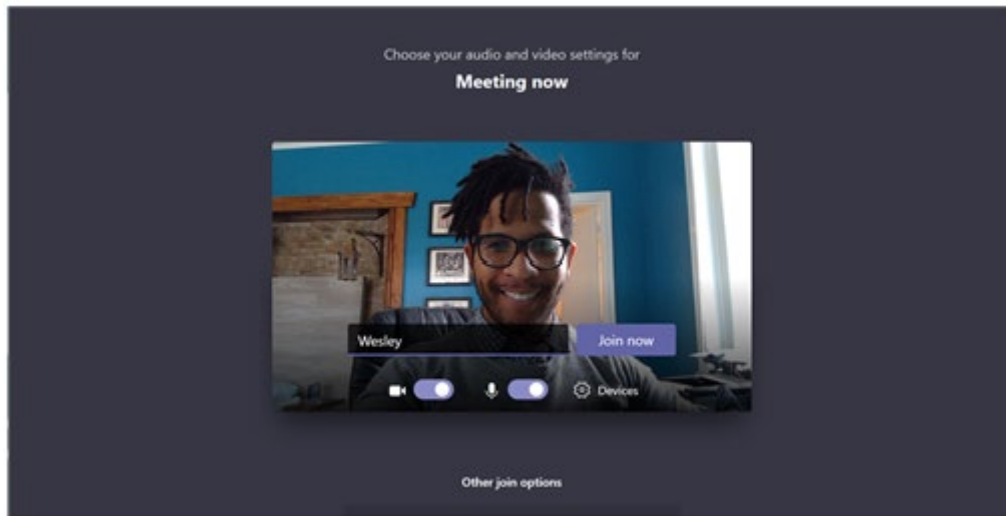

You do not need to sign up or log in.

Teams App: [Windows](#) | [Mac](#) | [Android](#) | [iOS](#)

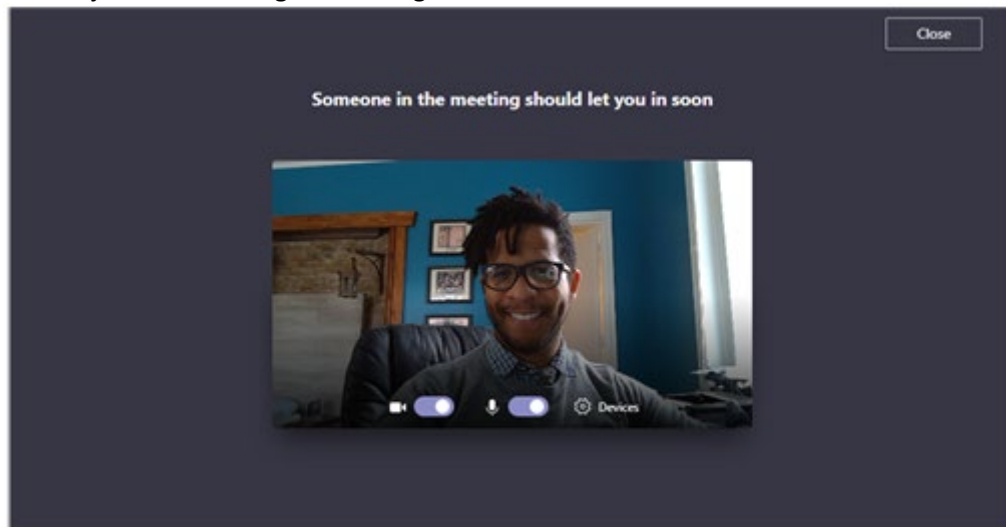

2. Click on the Teams meeting link you received by email
3. If the Teams app does not start, select "Already Have the Teams App? **Launch it now**" or "Open your Teams app"

4. Type in name and toggle microphone and camera on (or off) as needed. Press "Join now" when ready to join

5. You'll join the meeting once it begins

Joining from a web browser on PC/Mac/Chromebook

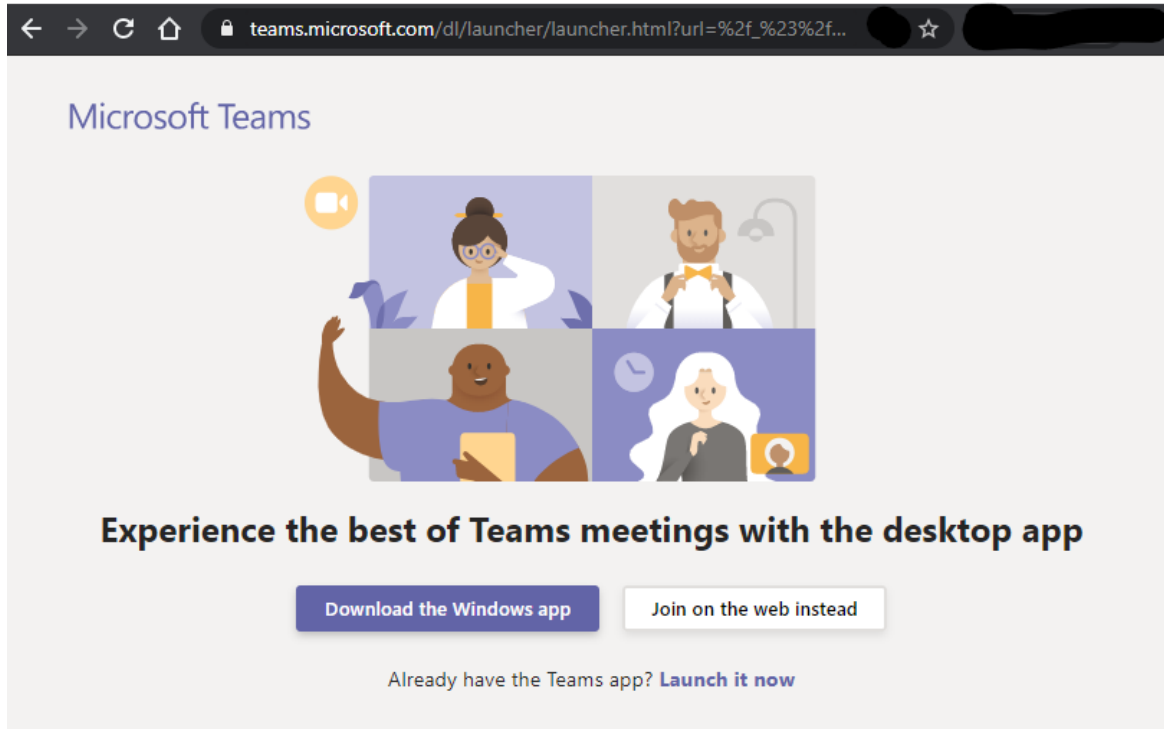

Recommended Browsers:

[Chrome](#) (works Windows, Mac, or Chromebooks devices)

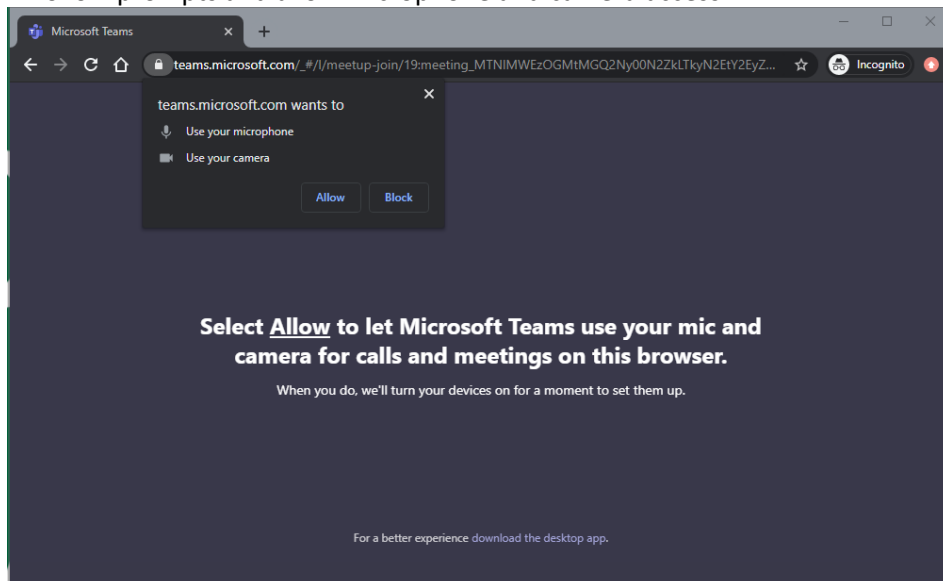

[Microsoft Edge](#) (Windows devices Only)

You can test the below steps as soon as you receive your meeting link.

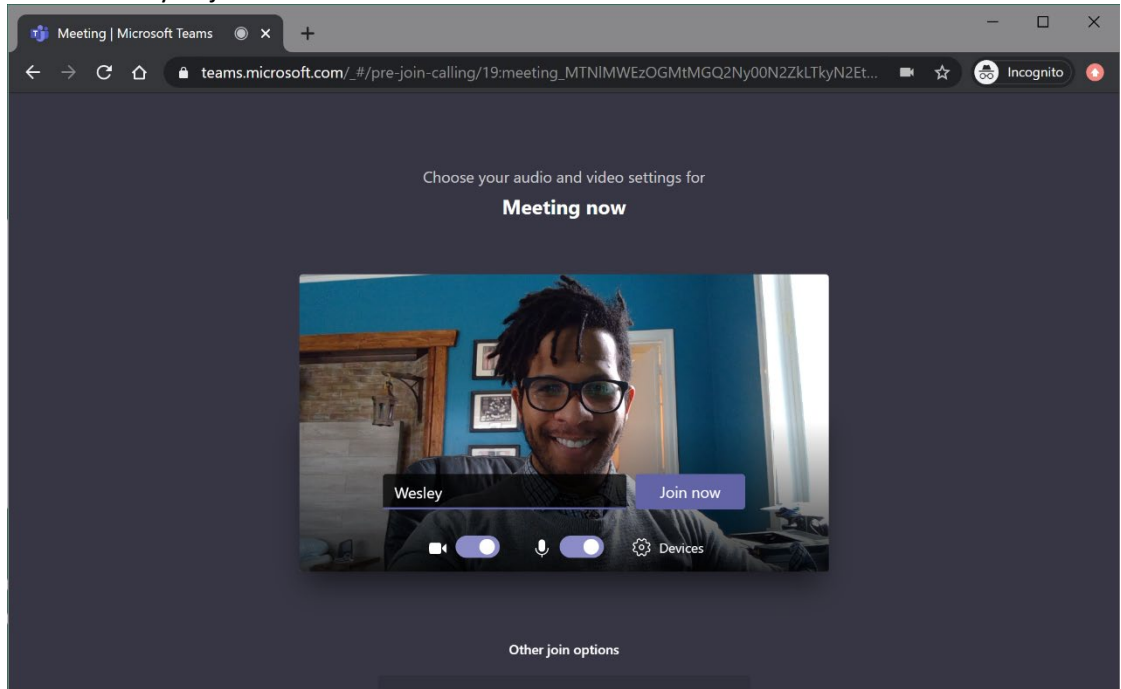

1. Click teams meeting link you received by email
2. Select "Join on the Web Instead" or "Continue in this browser"

3. Follow prompts and allow microphone and camera access

4. Type in name and toggle microphone and camera on (or off) as needed. Press Join Now when ready to join

5. You'll join the meeting once it begins
